“ Anita, you are so loved, spread your wings, like angels do. watch over your son, who will continue to honor you, forever. and to your grandchildren, who have love for you and memories of you, to tell their children about. to your great grandchildren, who may not remember your face, but will know you through memories told. You raised a good man who loves with his whole heart. I know that because, I know how much he loves you. I can only have him as a son-in-law, (as Bethany's mom,) but he is well loved in our family, we will take care of him the best we can for you. but no one can replace you, his MOM. love Genny and Mark Hyatt
