“ Oh, I'm sorry for your final loss, and the loss over the years from Alzheimer's. I went to Grad School with Jean. We were CSR friends and spent many hours together in the Grad Office in Matthews Hall. She had a great sense of humor. And I remember her hosting us at her home and serving cream puffs. My husband still talks about Jean Ness's cream puffs. They were the best he's ever eaten. Please do post info about her memorial service in the J&C. I would like to attend.
