I still can't believe my ole partner in crime is gone. She had a beautiful soul, and I will always treasure our crazy times together and the laughter we shared. I love you my friend.

“ *I always considered Tina a dear friend, even though life only allowed us to see each other every few years lately. Growing up just down the street from each other let us share many great times. I loved that she thought of me as one of her many “sisters.” I will always treasure the chance we had to speak on the phone in April. John’s and my thoughts and prayers are with everyone that loved her. Kristin (Limbert) Phillips*

“ *I still cannot wrap my head around this tragic situation. Tina, we shared many of lifes lessons. All the tears, fears , laughs and giggles that only you and I know about. Hugs and kisses, my Sweetie! Bruce and Betty, my deepest condolences to the two people who shaped and molded the Tina we loved dearly. You two have a special place in my heart and many memories that Tina and I would still giggle about. Denny Babb*
