“ Hello Nancy,

*I was surprised to read your Mom's obituary today. I'm 89 yrs. old and had no idea that she was 96. She was always so spry and so active and did so many things when we were active in Modern Mrs. Home Extension Club -- what a surprise! I'm so thankful she was able to work at the barber shop where she helped so many people enjoy life with upbeat conversation. When our club was no longer able to be active with meetings I stopped at the barber shop a couple of times to see her, I think she ordered pecans from me for several years.*

*I live at Primrose Retirement community, still able to live as independent but I have to use a walker to get around because of balance issues. We moved here 10 yrs. ago when my husband was diagnosed with Alzheimer. He passed in May 2017, so it's me and the dog right now. My 3 kids check in often and I have made a lot of new friends who live here so feel so fortunate to feel the love of others.*

*I remember the many times coming to your home for our meetings and how special YOU made everyone feel -- such good food, fellowship, gifts -- the list goes on and on.*

*There are only 3 others in that original bunch and all of us have some health issues so we visit with phone chats. I have notified them about Beverly.*

*Although we know from the time of our birth there will be a day when we no longer will be living on this earth -- BUT the family and friends are NEVER ready to say "good-bye".*

*Take care of yourself, enjoy your family as often as you can.*

*If you ever feel like a phone chat please don't hesitate to call me.*

*Thank you Barbara. Grandma was such a wonderful lady❤️ We will miss her terribly but we take solace knowing she is with God, Grandpa, Dad & my sister Christi. She is no longer sad or confused from the dementia that clouded her mind here on earth.*
