“ Like many others I had the pleasure of working with David, though we only knew each other for about a year. We got to know each other as he was the first person I would see/hear every morning, and he would always make it a point to stop by to chat before leaving to share a quick recap of the day, maybe a joke and a laugh, before hollering “See ya later.” He had an unmatched work ethic. I still remember when he showed up at the office during an ice storm when many others couldn’t make it in. I remember it even more because he called me around 4:30am so I could drive to the building myself and let him in after he forgot his badge. I’ll certainly remember him for his work ethic, his jokes/one liners, and his love for the Colts. He will be missed by many. My sincerest condolences, and prayers to his family during this time.

“ So shocked and saddened to hear of the passing of David. He was uniquely a "one of a kind" person. He had quite an impact on all him worked with him. I hope he knew how much his coworkers liked him.

“ I worked with him since he started and was one of the first people that he sat with to see how the job was done. He took pride in his work and was a wonderful co-worker. He will be missed and his family will be in our thoughts and prayers during this time.

“ *I worked with David for over 5 years. He was one of the first people I met at the company and was in my training class. He was always so kind, never met a stranger, always had a joke or two ready to make your day.*

I always admired how friendly he was, even long after I had left the department we worked in together, he would still come by my desk to check on me and see how I was doing.

David was a man who loved his job and wasn't afraid to show it. He was a welcome presence and a wonderful friend.

I feel incredibly blessed to have known him. My deepest condolences.

“ I worked with David for years, he was always a pleasure to work with, and always had his jokes about asking to go home early, though he never would have. He was one of the hardest workers I've met. He will be sorley missed by his work family I'm sure.

Laura G - May 10, 2023 at 03:02 PM
