“ Dear Saltsman Family, As an Employee of the Anderson Country Club I came in contact with Doc fairly often. He was a great man and had a great spirit. Though I didnt know him personally I did see him outside of this doctor role and what I did see was a wonderful man. He will be sadly missed.

“ When I saw the plane on television and they said his name, it was like a wound to the heart. He was such a nice, friendly person. The last conversation with him included a talk about the little kitten his daughter brought home. He loved that kitten very much. Being a cat person myself, I understood. I told him "that kitten has you rapped around it's paw". He agreed. He will be missed. May God Hold Him in The Palm of His Hand. You have amy deepest sympathy.

“ I was so in shock to see this in the paper. Dr. Saltsman treated me for many many years and he will be deeply missed he was one of a kind. He loves to joke with me about my tattoos he always looked to see if I had a new one on my ankle and would hate to give me a shot near my a new tattoo cause he knew it would hurt, he was very sympathetic Dr to all his patients as I can say he babied me. As i set crying writting this I can\`t make it to the funeral due to no ride and I had a panic attack over his passing, It won\`t be easy going to another Dr ,But I know He is in heaven Flying with his own wings now he doesn\`t need a plane. You and the family are in my deepest prayers.God Bless You. Penny Faulkenberry

“ Deepest sympathy to Shirley, Sharon, Ashley and Andrew. I always had a good time hunting and just spending time with Salty. We had pizza at our house every Friday night for the few years he was here in NY. It was so nice he flew out for Eddy's wedding. It sure meant a lot to all of us. Salty was a good friend. We'll all miss him. God Speed Saltydog.

“ In the early 1990\'s Dr. Saltsman operated on me. I noticed late that evening that my toe looked like it was turning black. I called and left him a message. He came to my house at 9:30 p.m. to examine me. Not many physicians would do that these days. He made an impression on me that I\'ll never forget.
