“ Our parents give us many things; our morals, our understanding of life and most times an instruction manual to get through it. We are products of who they were and many times find their words coming from our mouths. This is immortality and the greatest compliment of all. I grieve with you even though I am thousands of miles away and share in the immortality of James Stamper. With love.

“ *Cpl. Vandygriff our thoughts and prayers are with you and your family during these trying times. We hope that you remember all the joyous times you had with your dad when you were growing up and how as a parent he made you smile with glee just by the tone of his voice or a thoughtful pat on the back that made you feel so very special and safe.
