“ *Most of my memories was as a child or young teen but she was always nice to me and treated me like I was one of her cousins and made me feel welcome whenever I'd come around. I was sad to hear the news. From me and my fiancé we'd like to send prayers up to her and to the whole family. So sorry for your loss. Sending love*

“ I can not find any words to explain the reason or why such a beautiful person was taken so soon, how much you are loved, or how much we all will miss you. I love you and will always remember you and the way you always looked at the positive side of everything. I will always see your happy face and warm smile. I love you always and forever.

“ Jen was the best mom I could have ever asked for. She was always there for me and supported me in my studies. She understood me in ways that many other people did not. She was the smartest person I know and loved to "talk science" with me. She always lifted me up and pushed me to work as hard as I could so that I could achieve my dreams.
