“ I love Johanna and always will. We never met in person but we had a special bond. She was so smart, sweet and loving. We were always there for each other. She would call me when she was getting ready to open the store and tell me how horrible some of the customers had been the day before. She loved going to the lake house and I will always regret not being able to come out to go. She loved Steven so much and was so excited planning her wedding, I wish she was still here to do all the things she wanted to do. Einstein and Watson were her true loves, she spoiled those two cats. I look forward to seeing her again when my time comes to walk through the pearly gates. RIP Johanna and yes I do know you loved me (that was the last message she sent me)

“ Johanna and I never met in person, but we considered each other friends. Our love for our cats brought us together. She was over the moon when a local Petsmart asked her to take pictures of the cats up for adoption. She would FaceTime with me to show off the babies! You will be missed, my friend. See you one day at the bridge! ❤️
