“ John Dull was a brilliant man. As the Dean at Madison Heights High School John knew what was going on. Always around if I needed help. Wanted me to play football. I worked instead. Always cared and respected Mr. Dull.

“ "Mr. Dull" was my math teacher at Madison Heights High School
One of my fondest memories in school was when he asked me to dance after one of the basketball games at a "sock hop". I was not a good dancer by any means and students stood around us because he could dance- jitterbug
What fun that few minutes was! I really liked him.
