“ Well, I know that there is nothing that any one can say to take your pain away. I just want you to know that you had a beautiful, intellegent, and lovely daughter. I will never forget Morgan and I hope that one day your pain will ease. Morgan was the type of girl that never liked to see any one unhappy. I just want you to know that I thought a lot of Morgan and she will be taken care of she is with the most safest person she could ever be with now. You did all you could for her and I know that she is smiling down on you now and I know that she is very greatful to have parents like you and Bob. I know that you are proud of her and that is what she would of wanted her mom and dad to be proud of her. I just wanted to let you know that I am sorry. If you ever need any one to talk to I will be here when you need me. I know me and Morgan hasn't been around each other a lot these past couple of years but, she is one of the few really good friends i knew and could trust in high school and I am going to miss her alot. She always made me smile and that's what I loved about her. With deepest sympathy Virgeana, Darick, and Dayton

“ To my best friend, and sister. I will miss you more than words can say. I will always remember the good times we shared. I love you.

Brittany Crull - June 26, 2014 at 12:00 AM

“ I am so sorry.I dont know what to say, except I know how much everyone will miss her, because I miss her as someone I could trust and someone to talk to when things werent right. Even though I may not be at the funeral,but I might be there. I want you to understand that I loved her in many ways. And thats why this is so hard for me. Its not as diffuclt as I imagine it is for you. I talked to her back in June and hadnt seen her in a long time. Thats something Ill live with until my time comes. I will always remmeber Kristin Buckley for introducing us. I have problems which everyone does,but that makes this above all the saddest, angriest emotion I have ever felt. I loved her and would have taken her place in less than a second.
