“ *I truly believe that God works his missions of pure love. The day that I met Hope, I knew that my life would be forever changed by adding a bonus daughter to my crew. Then Roger came to live with her and it was then that I realized that this little girl was more of a woman than I am. This guy tho lol... what a character he was and he LOVED his babies with everything he was. We had many talks about everything from bikes to wars to food to beds lol. The laughs came often and his smiles were contagious, and for that I am thankful and blessed to have known Roger.*
