Mom loved the simple things, like taking a nap or sorting rocks or even performing a magic trick while in a trance. It was such a privilege for us to be able to have her in our lie during the twilight of her days. She became a very gentle and loving mother to me and I will miss her with all my heart.

This is the same woman that told preteens that we were the reason you molested us. One of which battled drug addiction and is no longer here. Why are you hiding behind a new name if you did nothing wrong? You are so religious that you deserve it? You walked a cross in front of the VIP while you molested little kids. Good mask, you also were in our military, staying in people's homes touching their children. You are such a great person, bravo! I too, would have changed my name and left state had I served time in prison for what you did. And the time you spent was not near what someone like you deserves.

“ We had a lot of good times just sitting around her kitchen table talking and drinking coffee. I know her family was very thing to her. I will miss her very much.
