“ July 1967 was the beginning of an almost 59 year friendship. My family moved in next door to the Bunce family & after a few days here came Susan from next door & Claudia from across the street. I have laughed several times this past week thinking about the day we were headed to Susan's car parked in the freshman lot by the duck pond at BSU. We had to climb a hill covered in ice & all we could do was hug an ice covered tree to make it up that small hill. We couldn't navigate the ice for laughing so much!

Susan also got to experience a night in the dorm with Brenda & I. She slept on the floor in a sleeping bag. All was well until the fire alarm rang in the wee hours! Oh the sight of her trying to get out of that sleeping bag!

During the blizzard of '78 we shared a 3 room apt in a house on McKinley while at BSU. We were low on groceries & was going to walk to the pantry when a bread truck comes down the road. We flagged him down, Susan gets in the truck & heads to the pantry with a total stranger driving a bread truck!

While a MHHS we discovered that one could get from the old library downtown to Harmeson Dr by way of Frischs on Broadway (in her dad's big old Buick)- who knew!

Christmas 2013 I could never have gotten through that day without Susan. Dad & I would have been lost without her & Jeff joining us for dinner. I probably didn't thank her enough while she was here, but I'll never forget how she made a really sad day into one I'll always cherish.

Junior high, high school, Ball State to RNs at Ball Memorial to retired old friends. What laughter & joy she brought with her the day she knocked on the door in July 1967.

I'm sad to lose a dear friend, but I have joy knowing she knew the Lord before she passed & He has welcomed her with open arms.

“ Susan was very helpful to me while working in her family business, Meadowbrook Hardware. She attended all the family activities including baby showers, for which she purchased a beautiful yellow ruffled dress for her first niece. Christmases with her were always fun. She joined in planning a surprise 30th anniversary party for her parents, held at Ovid Community Church. For one of her Dad's birthdays she bought a blond cocker spaniel named "Sonny". We both worked at Ball Memorial Hospital where she served in one of the Cardiac units and the Oncology unit. Then we both worked for St. John's Hospital with her job being at the Anderson Center. We enjoyed going to Perkin's restaurant for a snack after our second shift jobs. Whenever I had a medical question I could always call Susan - she was the family nurse.
